SUMMARY Responsible for developing, implementing and managing a school health program for a school population as defined by the school district.

ESSENTIAL DUTIES AND RESPONSIBILITIES include the following. Other duties may be assigned.

Establishes and manages a comprehensive school health program consistent with the MA guidelines, regulations and statutes governing nursing and school health, as well as local school district policy.

Consults with the school physician, school administrators and others on team to establish; review and revise policies, procedures and specific programs for comprehensive school health education and services; works with others to develop a needs assessment and data collection procedure.

Ensures the orientation, training, supervision and evaluation of health paraprofessionals as needed to comply with the Nurse Practice Act and other relevant statutes and regulations; organizes and implements the state mandated programs such as immunization surveillance and screening programs; works with school administration to promote positive safety practices both within and outside of school buildings; and assists in developing an emergency response plan which is communicated to personnel and students; assumes responsibility for in-service programs for school personnel for first aid, emergency care and current health issues including sensitivity towards medically challenged students; maintains comprehensive school health records.

Collaborates with school administration and personnel in assessing and improving the social and emotional climate of students and faculty; involves them in maintaining a healthful school environment. Establishes a process to identify students at risk for physical and psycho social problems and communicates health needs to other school personnel as appropriate and establishes

a referral system using both internal and external community resources. Includes the student and guardian in team conference when possible and appropriate. Identifies health-related needs for inclusion in the individual education plan. Serves as a member of pertinent teams and committees.

Uses population based data collection to plan and evaluate the school health program with nursing coordination.

Prepares written reports for school officials and MDPH and other agencies describing the services provided by the program etc.

Using the nursing process, collaborates with the parent/guardian and student, where appropriate, to develop and implement an individualized health care plan for the student. Collects information about the health and development of the student, family etc and makes home visits if necessary. Develops a nursing diagnosis and care plan with specific goals; provides medically prescribed interventions; responds to frequently encountered health issues, providing counseling and crisis intervention when necessary; assesses student responses to nursing actions.

Participates with other members of the community to assess, plan, implement and evaluate school health services and community services which include the broad continuum of primary, secondary and tertiary prevention. Uses the media to convey important health information and advocate for the role of the school health program in promoting the positive lifestyles and health of the student population.

Applies appropriate nursing theory as the basis for decision-making in the school setting while expanding knowledge and skills in response to the student health needs and participating in research.

QUALIFICATIONS

To perform this job successfully, an individual must be able to perform each essential duty satisfactorily.
